

Microsoft 365, Automation & AI Solutions

Architecture-led delivery for SharePoint, Power Platform, Nintex and Azure — from first workshop to managed support.

 International remote delivery with a dedicated Cairo business base for workshops and onsite engagements.

CORE CAPABILITIES

01 Microsoft 365 & SharePoint

- SharePoint Online & on-prem (2010 → 2019) intranets, DMS, portals
- Migrations to M365 (ShareGate / PnP) with zero data loss
- SPFx web parts & extensions in React / TypeScript
- Teams apps, Graph API, governance & security

02 Automation

- Power Automate cloud & desktop flows, approvals, connectors
- Nintex Workflow & Forms — build, rescue, modernise
- Nintex → Power Automate migration & process redesign
- Power Apps (canvas / model-driven) & Dataverse

03 AI & Azure

- Copilot Studio & Azure OpenAI agents grounded in M365 data
- Semantic Kernel / MCP, Document Intelligence, RAG pipelines
- Azure App Service, Functions, Logic Apps, SQL, Key Vault
- CI/CD with Azure DevOps & GitHub Actions, IaC (Bicep)

04 Architecture & Managed Support

- Solution & information architecture, tenant assessments
- Discovery workshops, roadmaps, governance frameworks
- Monthly managed support: monitoring, fixes, enhancements
- Mentoring & code review for in-house teams

SELECTED DELIVERY

- **Public-sector portals** — technical owner of multi-platform portals serving all national ports for a government authority.
- **Enterprise intranets & DMS** — 50+ SharePoint solutions across 8 ministries, 2 banks and private enterprises.
- **Platform migrations** — led SharePoint 2010 → 2013 → Online programmes with zero data loss and no business downtime.
- **Workflow modernisation** — Nintex and legacy workflow estates re-platformed onto Power Automate with redesigned approvals.
- **AI copilots** — Copilot Studio and Azure OpenAI agents for HR onboarding, helpdesk and proposal drafting on top of M365.

ENGAGEMENT MODELS

- **Project delivery** — fixed-scope build & migration
- **Advisory & architecture** — assessments, design, workshops
- **Managed support** — monthly retainer, SLA-backed
- **Partner capacity** — white-label overflow for MS partners

IDEAL FOR

- Microsoft partners needing senior SharePoint / Power Platform capacity
- SMEs and public bodies without an in-house M365 team
- Organisations modernising legacy SharePoint or Nintex estates
- Teams piloting AI agents on their own M365 data

FOOTPRINT

Clients in Kuwait, UAE, USA, UK, France and Turkey. Remote across GCC, EMEA and EU time zones; onsite from Cairo.
